Spring Term 1 2016

We've had another busy and successful term with a lot going on. We have enjoyed our learning this term especially our topic learning which was really enhanced by our Greek visitor, Lauren! She gave us a great overview of Greek civilisation and how the Greeks influenced the way we live today. The children have worked extremely well and have really developed their learning behaviours and resilience. We'll be starting off with a further focus on Growth Mindset in the first week back...

Curriculum

Our new topic for terms 3 and 4 will be Disasters! In this Geography based unit we'll be learning all about volcanoes, earthquakes and other natural disasters. We even have a theatre company coming on 29th January to offer an 'Earthquake and Volcanoes' workshop! We will be finding out about all the planets, Sun and Moon in our Science topic too. If you have time, you could see what facts you can find out over the holidays.

Topic	Disaster!
Science	Earth and Space
RE	Judaism - Torah and beliefs
Art	Painting skills
Computing	Shape and tesellation
PE	Dance/handball
Music	Classroom Jazz
PSHCE	Going for goals

Have a fabulous and relaxing Christmas break and come back ready to work even harder in January!! Merry Christmas and a Happy New Year to you all.
