

Times tables - games for your tablet

These are the times tables websites and apps that we use on our school ipads for learning times tables. You could also download them for use at home.

Hit the Button

Our teachers' favourite.

Children answer quick questions to practice \times and \div facts.

Simple and effective format.

You can choose a times table or mixed times tables questions.

Also covers doubles, halves and number bonds.

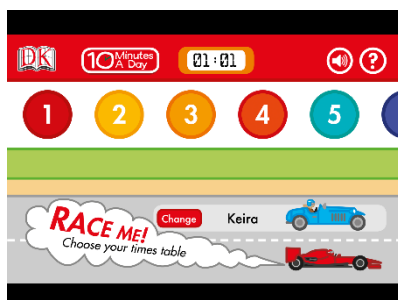

Squeebles Times Tables 2

Our children's favourite.

Children answer \times tables questions to win stars.

Includes a 'training' mode to teach times tables.

Also includes simple games which children can play by trading their stars, which can be a distraction or a reward!

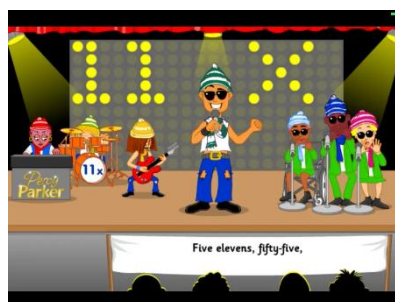

DK 10 minutes a day times tables

Children answer times tables questions.

Set up in a progressive order, beginning with \times tables facts in order, then moving on to random and missing number questions.

Racing car format encourages speed of recall.

Percy Parker

This app plays a song for each times table.

Maths Rockx

In the quiz section children answer \times tables facts.

You can also purchase a song to learn each times table.
