

Ryarsh Primary School

RYARSH AWARD FOR EXCELLENCE

Oliver

Koala Class

Oliver has enjoyed a really fantastic term in Koala class and it is with great pride we award him with the excellence award for this term.

There have been some wonderful improvements to Oliver's learning behaviours this term. He is much more engaged in his learning and takes an increasingly positive attitude towards the challenges he faces. He is developing a real 'can do' attitude towards school and this is making a world of difference. His improved work ethic has been really impressive and has undoubtedly contributed towards his ongoing success. Oliver is really gaining some great momentum with his learning, realising that success through learning often leads to future successes.

Oliver has a real strength in the way he presents his learning. He is often able to use a variety of creative ways to show us his learning and has a real 'out of the box' approach to demonstrate what he is thinking. Our forest school sessions really highlighted Oliver's strength in problem solving. He always seems to come up with solutions that even the adults haven't considered! His unique approach was on show in recent science and art lessons. In science, he produced some amazing visual representations of the water cycle. In art, Oliver used water colours to achieve different tones and textures when painting a tree.

Finally, it is impossible not to mention Oliver's fantastic reading progress this term. He has been working tirelessly both in school and at home to become a much better reader. Not only is Oliver much more fluent with his reading but he is really working hard to improve his comprehension skills too. He takes on feedback from all adults and is really determined to improve his learning.

Overall, it has been an amazing term for Oliver and we are sure that he will continue to impress us all! Well done Oliver!

Mrs Crozier and Mr Childs
